

# Remote Target

```
graph LR; Power[Power 9v Battery] --> Node[XBee SC2 Network Node]; MessagesIn[XBee Network Messages Received] --> Node; Node --> MessagesOut[XBee Network Messages Sent];
```

The diagram illustrates a 'Remote Target' system. It features a large rounded rectangle labeled 'Remote Target' which contains a smaller rectangle labeled 'XBee SC2 Network Node'. Two input arrows on the left point into the node: 'Power (9v Battery)' and 'XBee Network Messages Received'. A single output arrow points from the node to the right, labeled 'XBee Network Messages Sent'.
